

- Today we covered pages 24-44 in the course book. Besides that we discussed a program for the PRAM that can compute the maximum of n numbers in $O(1)$ time. We discussed Table 2.1 in detail.
- You got your first assignments, they are due on 18. September 2008, 12pm.
- For the next lecture you should read the course book till end of chapter 2. You should not focus on Cache Coherence, although you should understand what *false sharing* is. Most important are Section 2.5 - 2.7.
