DM19 – E99 – Lectures 29 and 30

Lecture, December 8

We covered sections 2, 8.1, and 9 from the notes on on-line algorithms. We began looking at another example of an on-line problem, the seat reservation problem; this is an extra topic, which you are not responsible for on the exam.

Lecture, December 10

We finished discussing the seat reservation problem and covered Pollard's ρ-method for factoring, from section 33.9 of the textbook.

Lectures, Week 50

We will continue discussing integer factoring and possibly polynomials (chapter 32) and hold a question session, so bring any questions you have about the exam on Friday.

Announcement

FILMAFTEN PÅ TORSDAG DEN 16/12 KL. 16.20

THE JULEKALENDER står på programmet. Der vil være julebag og kaffe, så vi kan sætte os ned og nyde Oluf og Gertrud, Benny og de 3 musikalske nisser. Mød talstærkt op til 4 timers gedin underholdning. For ikke jyder skal det oplyses, at der er undertekster!!

Vi ses på torsdag.

Med venlig hilsen
Erik Vind Nielsen
faglig tutor
