DM19 – E99 – Lectures 13 and 14

Lectures, Week 40

We finished chapter 27 from the textbook and begin on NP-Completeness from the second set of notes and chapter 36 in the textbook.

Lectures, Week 41

We will continue with NP-Completeness, covering Cook's theorem from the second set of notes and the reductions from chapter 36 in the textbook.

Lectures, Week 43

We will finish chapter 36 and most of chapter 37 in the textbook.

Problems to be discussed in week 44

36.3-1, 36.3-5, 36.4-5, 36.5-1, 36.5-4 (warning: it is tempting to think that this one is completely trivial; it is not), 36-1 (this one is probably the most fun; try all parts).
