Introduction to Computer Science
E04 – Lecture 13

Lecture, November 29

Jørgen Bang-Jensen lectured on graph problems and heuristics. There were notes with the weekly note.

Lecture, December 6

Brian Vinter will lecture on GRID computing. There are notes and program code on the course's Web page.

Lecture, December 6

Lene Monrad Favrholdt will lecture on on-line algorithms. At the end, I will lecture from chapter 11 in the textbook on NP-hardness.

Discussion section: week 50

Discuss the problems, from the notes on the Web in groups of three or four. Note that there is some optional programming included.

No assignment this week.
