

Introduction to Computer Science E05 – Lecture 13

Lecture, October 13

We finished section 11.5 and begin on artificial intelligence from chapter 10 of the textbook, covering sections 10.1 and 10.2 and beginning on 10.3.

Lecture, October 24

We will continue with chapter 10 of the textbook, probably covering through section 10.4. If there is time, we will discuss which topics covered in this course are covered in which courses you may be taking later in your studies.

Lecture, October 27

Lene Monrad Favrholt will be lecturing on bioinformatics and on-line algorithms.

Recall that the last assignment is due 10:00, Friday, October 28, in my office
