

On-Line Algorithms – F03 – Note 13

Lecture, May 9

We finished chapter 12 (leaving most of the material on bin packing for reading) and just barely started on the relative worst order ratio.

Lecture, May 23

We will cover much of the article (on the Web page for the course) on the relative worst order ratio.

Lecture, May 30

We will cover more results on the relative worst order ratio and some on the seat reservation problem.
