On-Line Algorithms – F17 – Lecture 7

Lecture, February 22

We finished chapter 2 and began on chapter 6, covering up through the beginning of subsection 6.1.1.

Lecture, February 28

We will finish chapter 6.

Lecture, March 3

We briefly covered chapters 7 and 8 in the textbook, with most emphasis being on the proof of the lower bound for randomized paging using Yao's principle.

Problems for March 7

Problems that we didn't finish from March 1.
