Re: Evaluation of DM205:

The course, DM205, On-Line Algorithms, was offered for the first time, the fourth quarter of the 2008–2009 academic year. A course evaluation was performed at the end of the course. All five students who took the course filled out evaluation forms, though there are only four answers to some questions. A summary of the responses has been prepared and is attached.

Overall the evaluation of DM205 gives no indication that major changes in the course should be made.

Sincerely,

Joan Boyar
