

## DM830 Network Security – F12 – Lecture 4

### **Lecture, April 18**

We finished chapter 3, except for the Diffie-Hellman key exchange.

### **Lecture, April 23**

We will finish chapter 3 and cover chapter 4.

### **Lecture, April 27**

We will cover Appendix D in the textbook (see the textbook's Web page) and begin on chapter 5.

### **Discussion section: April 30**

There will be a presentation on viruses from chapter 10 in the textbook.

1. Do problem 4.1 in the textbook.
2. Do problem 4.2 in the textbook.
3. Do problem 4.5 in the textbook.
4. Do problem 4.6 in the textbook.
5. Do problem 4.8 in the textbook.
6. Do problem 4.10 in the testbook.
7. Find certificates (in viewable form) in your browser. Use a screen dump to print one out. What version of SSL/TLS is used? (Note that in Firefox, you can start by looking through Edit -> Preferences -> Advanced...)
