KSL

EVALUATION OF DM803 – FALL SEMESTER 2014

You can answer in Danish or English. Note that the form has two pages.

You may of course skip details if you want to remain anonymous.

Study degree (MS dat, MS mat, Ph.D. dat, etc.): _____

Starting semester and year (master education): _____

Degree of difficulty:

How hard is the course compared with other master level courses you have taken or are currently following?

Easier

0	1	10	1
---	---	----	---

 Harder

Language:

To what extent has it been a problem for you that the course has been taught in English?

No problem

12	0	0	0
----	---	---	---

 Significant problem

The lecturer (Kim Skak Larsen):

How do you judge him in total as a lecturer (qualifications, preparation, and ability to explain the material and answer questions)?

If you think there were significant deviations between the different evaluation criteria, supplement your answer in the additional remarks field.

Bad

0	0	0	11
---	---	---	----

 Good

Participation:

If you skipped lectures or exercises frequently, please explain separately for the two why this was.

6 out of 12 students indicated that their reduced attendance to the Wednesday exercises were due to the 8:15 starting time.

Additional remarks:

Please include any suggestions for improvements.

The discussion of exam questions at the last lecture was well received.

I'll will do this in the future as well.

There was a suggestion of announcing all literature and a (preliminary) list of exam questions at course start.

I think I will do this; also making the literature preliminary, and possibly fixing both literature and exam questions as the course progresses.
